Corona Notes

About thirty people went to Carrizozo last Saturday to take in the big dance that the Brakemen put on there. Everyone reports the best time in the world and say that the brakemen are royally good hosts. The majority of them motored down, returning Sunday morning.

The E. P. & S. W. section gang is busy putting in a track on the west side of the warehouses here. This will be a needed improvement. Heretofore it has been a very hard job to get to a car that was being loaded. Now, we have the track right out in Main Street and there should be no further difficulty in getting to them.

Owen Sloan left Monday morning for the bed sides of his three children in Alamogordo. As yet we do not know as to the seriousness of their malady.

E. L. Moulton is down from Albuquerque for a few days attending to business here.

Mrs D. S. Nutter left last Sunday for a visit with friends and relatives in Willard

Work is progressing rapidly on the new school gymnasium and from all indications it will be finished at an early date. The walls are up nearly as high as they are wanted and it is beginning to look like a real building instead of "the ruins of Babylon."

Felix Nash returned from El Paso last Sunday where he has been for the past week on business. He expects to leave at an early date for Old Mexico, where he will join the Houtons on their ranch.

William Latta, who has been visiting El Paso and points of interest close by for the past week, returned last Monday. He reports everything looking fine in the City of the Pass, and "lots better on the other side."

Bob Stevens left last Monday for Santa Fe to attend to some business in connection with the mines. He was accompanied by William Latta. The trip was made in Bob's new Nash.

Why is it that the high cost of living has not dropped here? We see where all over the country prices on nearly every commodity has dropped nearly to the pre-war prices. Yet one of the leading stores here has made but very little cut in any commodity. We wonder why it is?

Guy Keating and family arrived in town this week from Pecos, Texas, where Mr. Keating has been connected with the oil game for the past ten months. The family will reside here for the future. Mr. Keating entering into the employ of the E. P. & S. W.

querque, under the supervision of Mrs. Asplund, will be remembered and a booth fitted up for the sale of such articles as will be sold for the little tots. Any free will offerings for this benefit will be gladly received during the afternoon. Mrs. J. B. French was appointed as chairman.

Refreshments will be served from 3 to 7 o'clock, during the hours of the Bazaar. The general public is invited.

On December 31st, the club will give a Watch Party and Musical. Mrs. Ziegler offering her home for this occasion. Members of the club and their husbands are cordially invited.

Well Attended Meeting Of Eastern Star

Last Thursday evening, Comet Lodge No. 21 held a meeting that crowded the seating capacity of the Masonic Hall. This being the last meeting of the old year, officers were elected for the coming year, as follows: Worthy Matron, Mrs. D. S. Donaldson; Associate Matron, Mrs. E. O. Prehm; Worthy Patron, H. P. Huppertz; Conductress, Mrs. W. C. Merchand; Associate Conductress, Miss Meda West; Secretary, F. S. Miller; Treasurer, Mrs. F. S. Miller.

Other officers, which are appointive by the Worthy Matron, will be announced at the next regular meeting which will take place on the evening of January 6th, at which time the officers, elected at the above meeting, will be installed. After election, refreshments were served and a pleasant social hour was spent.

Proclamation By The Governor

Executive Office,
Santa Fe, New Mexico.

The physical welfare of a people is an essential prerequisite to every kind of welfare. Christmas to the sick and suffering is seldom a Merry Christmas. The New Year, to the physically afflicted, is not either happy or prosperous. On this account, the annual sale of Christmas Seals, which makes possible continuance throughout another year of our state and county health organizations is a worthy event, and this is a work in which all citizens may co-operate for the common benefit. This cause is as wholly unselfish and as conspicuously for the public welfare as any cause can be. The purchase and use of Christmas Seals is concrete evidence of our "good will to men."

It is well for us to keep in mind at this season of giving and rejoicing, the unnecessary burden of preventable disease. It is right that we should do everything in our power to lighten the burden and to add to the sum total of happiness. Two out of every hundred of our citizens are afflicted by preventable disease. The money cost and economic loss are very heavy. Our best efforts may well be given to reducing these losses and in removing in so far as is possible the misery resulting from physical affliction.

The Christmas Seal has come to have a world-wide significance at the Holiday season, as the symbol of the united warfare of all civilized people upon disease. It offers us a powerful method of attack upon the enemies of health and happiness. General purchase and use of Christmas Seals by the people will help to brighten the Holiday season and will serve to make possible further useful efforts in behalf of the public health by one of the most worthy organizations of our state.

Therefore, I, Benj. F. Pankey, Acting Governor of the State of New Mexico, do hereby set apart the period from December 12th to 18th, 1920, as NEW MEXICO HEALTH WEEK to be observed by the people according to their means in promoting the work of our state and county health organizations through the medium of the Christmas Seal.

Done at the Executive Office, in the City of Santa Fe, State of New Mexico, this 4th day of December, A. D. 1920.

Witness my hand and the Great Seal of the State of New Mexico.

(SEAL) BENJ. F. PANKEY,

Attest: Acting Governor.

MANUEL MARTINEZ,

Secretary of State.

Spence & Sons shipped twelve car loads of cattle from the Ancho station last week to the Kansas City markets. Wm. Spence accompanied the shipment.

School Notes

(By E. E. Cole, Supt.)

The Camp Fire girls were very sorry to lose a few of their members recently. Through some error, three of the girls who are under age were taken into the "Fire." According to the rules of the national organization no person can be taken into membership under twelve years of age. No person can be admitted to membership no matter how near twelve she may be. This is the rule and it is a good one.

The "Camp Fire" girls regret having to take the action they did and hope to receive the younger girls into membership next year. They also wish to thank them for their fine cooperation while with them and to congratulate them on the fine spirit in which they took the disappointing news that they could not meet the requirements for membership.

The New Mexico Course of Study, in the work outlined for the eighth grade arithmetic, endeavors to have actual business methods taught, making the pupils familiar with the practices they may soon meet with in life.

Following this lead, Mrs. Gumm has been using, during the present year, regular bank forms generously furnished by the local banks. Notes have been made, endorsed, changed hands, interest computed and checks drawn in payment for the same. Deposit slips have been made and balances of account drawn. The local county tax schedule has been studied. Just now the class is studying investments in stocks and bonds, using newspaper quotations and giving especial attention to liberty and school bonds.

Dr. D. W. Gudakunst, representing the United States Public Health Service, cooperating with the New Mexico State Department of Health, spoke in the assembly of the Carrizozo High School on Thursday morning; to the boys at nine o'clock and to the girls at ten.

Dr. Gudakunst is a graduate physician and surgeon, had three years experience in the army, besides some practice, and comes well recommended. Members of the school board and parents of the pupils attended both of these lectures. The lecture was sensible, dealing with the dangers attendant upon immoral conduct and the diseases arising from it, the "Keeping Fit" side of the question and not the sensational. The lecture should be highly profitable to the boys and girls of Carrizozo.

Next Saturday at 2:30 in the afternoon, at the High School basketball grounds, will be played a "double-header" game between Capitan and Carrizozo high school teams. The Carrizozo team last year defeated the Capitan team at Capitan, and the game of next Saturday is a return game. The team from the mountain town is doubtless coming for "scalps." The boys from Capitan will play our boys at the same time; that is, the same afternoon. The two games will be hotly played and we believe the people of Carrizozo will be highly entertained.

After the game, the teams, faculty and school board of the two towns will be served refreshments in the High School building. Miss Neff and the girls of the Domestic Science department will serve and will doubtless do themselves credit.

Of course, no one would think

New Mexico Senator Visits With Harding

Harding Talks Over League of Nations and Cabinet Selections in Series of Conferences; Gossip Mentions Fall for Secretary of State.

Washington, Dec. 8.—The league of nations and cabinet selections were talked over by Senator Harding and his advisers today in another series of conferences.

On the league issue Mr. Harding consulted representatives of both the mild reservationists and the irreconcilables, conferring first with Senator Spencer of Missouri, a mild reservationist, and later with Senator Johnson of California, leader of the irreconcilables. Senator Kellogg of Minnesota and other mild reservationists were among those who called during the day.

Senator Fall of New Mexico visited Mr. Harding and then conferred with various senators at the capitol. Senator Fall had spent the night at the McLean residence and his close association with the president-elect revived rumors that he was being considered for an important cabinet position. In the gossip about the capitol he was mentioned variously for state and interior department portfolios.

The Trainmen's Dance Well Patronized

The Benefit dance, given by the B. of R. T. Saturday night, was both a social and financial success. The Lutz Hall was crowded to its capacity with lovers of the amusement who danced to the music of the "Joy Makers," Ferguson's orchestra, until the curtain fell on one of the most delightful affairs of the season. The neat sum of \$100 was realized which will go to the relief of the sick and disabled members of the order to make the yule tide more bright for these unfortunates. This was the first dance given by the B. of R. T., and we congratulate the order on its success.

Mr. and Mrs. C. B. Wells, of Bisbee, Arizona, are visiting the A. R. Duggar family. Mrs. Wells is a daughter of Mrs. Duggar.

Mrs. R. R. Sale and Miss Grace M. Jones spent the first part of the present week in El Paso.

of coming to see these two games without paying for the privilege. We think that 20 cents from the pupils of the Carrizozo schools, and 35 cents from all others to be reasonable. Come and encourage good, clean athletics.
